

Mike, on the behalf of the Lauderdale County Sheriff Department, I want to express my thanks to you and your staff for the generous equipment donations. The PBT will be put to great use as we combat the growing number of DUI suspects on our roadways. While out enforcing traffic laws and searching for intoxicating drivers, the newly issued traffic vest will ensure each officers safety while doing so. With the war on law enforcement officers rapidly growing, it gives a great price of mind know that the men and women of such a great department have lifesaving supplies to buy vital time to arrive at the hospital. The flash lights that were donated were greatly appreciated as many deputies only have one flash light and no back up. Again, the men and women of the Lauderdale County Sheriff Department are very appreciative for you and your staff.

Thanks

Jacob Mathis
